#### INTERNATIONALSEARCHREPORT

International application No. PCT/JP2005/015114

## CLASSIFICATION OF SUBJECT MATTER

Int.Cl. H01L21/268 (2006.01), H01L21/20 (2006.01), H01L21/336 (2006.01), H01L29/786 (2006.01)

According to International Patent Classification (IPC) or to both national classification and IPC

#### FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

H01L21/268 (2006.01), H01L21/20 (2006.01), H01L21/336 (2006.01), H01L29/786 (2006.01)

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched Published examined utility model applications of Japan 1922-1996 Published unexamined utility model applications of Japan 1971-2005 Registered utility model specifications of Japan 1996-2005 Published registered utility model applications of Japan 1994-2005.

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

### C. DOCUMENTS CONSIDERED TO BE RELEVANT

# INTERNATIONALSEARCHREPORT

International application No. PCT/JP2005/015114

Box No. II	Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)			
This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:				
· · · · · · · · · · · · · · · · · · ·	ns Nos.: use they relate to subject matter not required to be searched by this Authority, namely:			
becar	ns Nos.: use they relate to parts of the international application that do not comply with the prescribed requirements to such an at that no meaningful international search can be carried out, specifically:			
	s Nos.: use they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).			
Box No. III	Observations where unity of invention is lacking (Continuation of item 3 of first sheet)			
The san are "prod laser beat laser beat third lass film." Hous 2004/0 Therefore Consequence Nos. [1, 28-37 referring As all claims  2. As all additions. As only	mal Searching Authority found multiple inventions in this international application, as follows:  me or corresponding matters (A) between the inventions of claims Nos. 1-37  ducing a first laser beam emitted from a laser oscillator into a second am by passing through a slit; producing the second laser beam into a third am by using a condensing lens; irradiating the semiconductor film with the ser beam; and moving the third laser beam relative to the semiconductor wever, it became apparent that the matters (A) were mentioned in a document 041158 A1 (Mikio Hongo, et.al.,) 2004.05.04, the whole document, figs. 1-35.  at the matters (A) makes no contribution over the prior art.  uently, there is no technical relationship between the inventions of claims 3-13 referring to the claim 1, 14, 16-25 referring to the claim 14, 26, ferring to the claim 26] and [2, 3-13 referring to the claim 2, 15, 16-25  to the claim 15, 27, 28-37 referring to the claim 27].  required additional search fees were timely paid by the applicant, this international search report covers all searchable  searchable claims could be searched without effort justifying additional fees, this Authority did not invite payment of anal fees.  y some of the required additional search fees were timely paid by the applicant, this international search report covers as claims for which fees were paid, specifically claims Nos.:			
restricte	uired additional search fees were timely paid by the applicant. Consequently, this international search report is ed to the invention first mentioned in the claims; it is covered by claims Nos.:  4, 14, 16, 26, 28  The additional search fees were accompanied by the applicant's protest and, where applicable, the payment of a protest fee.  The additional search fees were accompanied by the applicant's protest but the applicable protest fee was not paid within the time limit specified in the invitation.			
···	No protest accompanied the payment of additional search fees.			

International application No.
PCT/JP2005/015114

Continuation of III

The same or corresponding matters (B) between the inventions of claims Nos. [1, 3-13 referring to the claim 1, 14, 16-25 referring to the claim 14, 26, 28-37 referring to the claim 26] are "producing a first laser beam emitted from a laser oscillator into a second laser beam by passing through a slit; producing the second laser beam into a third laser beam by using a condensing lens; irradiating the semiconductor film with the third laser beam; and moving the third laser beam relative to the semiconductor film." However, it became apparent that the matters (B) were mentioned in a document US 2004/0041158 A1 (Mikio Hongo, et.al.,) 2004.05.04, the whole document, figs. 1-35. Therefore, the matters (B) makes no contribution over the prior art.

Consequently, Therefore, there is no technical relationship between the inventions of claims Nos. [1, 3, 4, 14, 16, 26, 28], [5, 6, 17, 18, 29, 30], [7, 8, 10, 19, 20, 31, 32], [9, 21, 22, 33, 34], [11, 23, 35], [12, 24, 36], [13, 25, 37].

The same or corresponding matters(C) between the inventions of claims Nos. [2, 3-13 referring to the claim 2, 15, 16-25 referring to the claim 15, 27, 28-37 referring to the claim 27] are " forming a semiconductor film over a substrate; combining a first laser beam emitted from a first laser oscillator whose polarizing direction has been changed by a waveplate with a second laser beam emitted from a second laser oscillator by a polarizer the combined laser beam serving as a third laser beam; producing a third laser beam into a fourth laser beam by passing through a slit; producing the fourth laser beam into a fifth laser beam by using a condensing lens; irradiating the semiconductor film with the fifth laser beam; and moving the fifth laser beam relative to the semiconductor film." However, after taking the prior art into consideration, it became apparent that the matters(C) were mentioned in a document US 2004/0041158 A1 (Mikio Hongo, et.al.,) 2004.05.04, the whole document, figs. 1-35 and US 2003/0216012 A1 (Nobuo Sasaki, et.al.,) 2003.11.20, the whole document, figs. 1-29. Therefore, the matters (C) makes no contribution over the prior art.

Consequently, there is no technical relationship between the inventions of claims Nos. [2-4, 14, 16, 26, 28], [5, 6, 17, 18, 29, 30], [7, 8, 10, 19, 20, 31, 32], [9, 21, 22, 33, 34], [11, 23, 35], [12, 24, 36], [13, 25, 37].
